## Assurances that imported goods do not contain asbestos

Considering the high level of health and environmental protection, DSEA A/S hereby states that

- Asbestos is not used in any of the manufactured products and therefore complies with the Regulation (EC) No 1907/2006, annex XVII “restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles”.
- Chrysotile is not used in any of the manufactured products and therefore complies with the Customs (Prohibited Imports) Regulations 1956, 4C Importation of asbestos.
- Asbestos/ or a powder substance that contain asbestos is not used in any of the manufactured products and therefore complies with the Customs (Prohibited Imports) Regulations 1956, 4C Importation of asbestos.
- The written confirmation from our suppliers, confirming that their products do not contain asbestos of any kind, can be delivered on request.

We can also produce written confirmation from our suppliers, confirming that their products do not contain asbestos of any kind.

We also acknowledge Australian Border Force may request written Certification to verify No Asbestos from either:

- Certification of samples tested inside Australia a National Association of Testing Authorities (NATA) accredited laboratory.
- Certification of samples tested outside Australia must be from a testing laboratory that is accredited by a NATA recognised equivalent authority.

DSEA A/S is the manufacturing company owned by EPOS Group A/S.
